

One of the safest Countries.  
 Here in Ireland we are very lucky  
 because we have no war unlike  
 Ukraine, we have very little crime  
 unlike America. Now for animals  
 that is even better! We have no  
 dangerous animals like, snakes, bears,  
 tarantulas or even raccoons! And also  
 our roads are pretty safe. Say  
 like the traffic light we'll need  
 the people would stop! Ireland  
 is pretty amazing right? Actually  
 it is spectacular! So, if you don't  
 know where to go on holidays say  
 this "Ireland, why don't we go to  
 Ireland! I think it is the safest  
 country in the world!" So please  
 come visit us! Also the stuff is  
 pretty entertaining! We have the  
 famous Fay to park!

The Green Island wealth/freedom  
 Ireland is very wealthy and free  
 because we all have the right to  
 vote for everything and we can  
 travel unlike other countries they  
 only can travel someplaces. Ireland is  
 very wealthy because probably 98%  
 has everything they need like food,  
 we have lots and lots of food  
 because we're very green so with all  
 the rain we can grow crops. We have  
 an education. Some other countries can't  
 have an education. They have to stay  
 home and work especially women.  
 Most people have homes - less than 1%  
 are homeless so that means 99% of  
 people have homes. Most people in Ireland  
 have lots of clothes but some  
 countries have only one pair of  
 clothes and have to wear the same  
 pair over and over again all the  
 time I am very very very very lucky  
 to live in Ireland. THE END.

Rory Sheehan

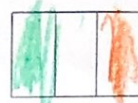

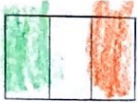

# Good Safety

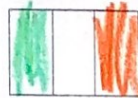

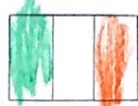

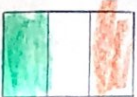

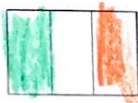

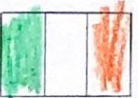

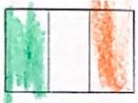

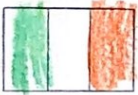

we are safe because  
we have no war, very  
little crime and safe roads.

we have no harmful  
creatures like snakes, bears,  
dangerous spiders, crocodiles  
and lions. no dinosaurs or  
robs, poison food, very  
little murderers, bees  
that can kill you.

Quick sand, sharks,  
werewolves, scorpions,  
blackjacks, polar bears.

# Safety

In Ireland we don't have any war. We don't have dangerous creatures like tarantulas, wolves, bears and snakes. We barely have any crime and we have loads of cops to make sure we are safe and we have firemen and we have paramedics to make sure we are healthy.

Our roads are very safe and in other countries their roads are not safe. We have loads of safe stuff. Our houses are safe. Your house doesn't have any dangerous things. We don't have any extreme weather like tornadoes, volcanoes and lava. We live in a very safe country. Ireland is very safe. We don't have any dangerous things. We have lovely wild life but some creatures are dangerous.

## Free dom

Some times my Mam and Dad will not buy toys for me but we have free dom so we can go to places and we can protest and we have clothes food and a home and we have the right to vote and we have loads of toys an friends a family and shops beaches schools people. It is very good or sometimes bad when people be meen or nice it is not nice when people be meen. So, don't be greedy when you have food home and clothes and a drink toys friend family. Soor the next time you come into the shop don't be greedy.

## Lucky Ireland

Ireland is a great country and we are very lucky to live here. In this green country it rains a lot but because of it we have green grass all year. This country has very warm summers. The weather is perfect for swimming because the water in the sea is not too cold. Ireland is very lucky, here we have a lot of nice beaches and green mountains. We don't have horrible disasters in Ireland such as tornadoes, earthquakes, tsunamis or volcanic eruptions.

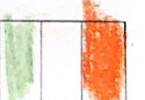

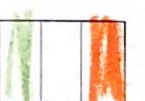

## Safety First!

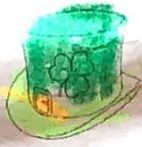

In Ireland there is very little crime, road accidents, war and dangerous animals like bears, spiders and snakes, crocodiles and cobras. We barely have road accidents, war or crime. We are very safe because of the gardai.

I am very happy that we can all live in a safe country that has no dangerous animals, no war or crime and road problems. I am glad we are protected by the gardai. I am happy we are safe in Ireland.

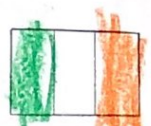

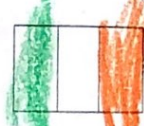

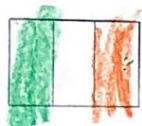

# Lucky us

There is no war in Ireland,  
 there is very very little crime,  
 our roads are safe not like in other  
 countries where there are holes  
 in the roads or falling bridges  
 but in Ireland our roads are safe  
 and bridges dont fall down. There  
 are no harmful creatures like  
 super dangerous spiders or bears.  
 There are no snakes like pythons  
 and poisonous snakes. We are very  
 Lucky! When we look at countries  
 I feel lucky and sad for the  
 other countries and we don't have  
 volcanoes, not many killers. Lucky  
 lucky!

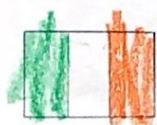

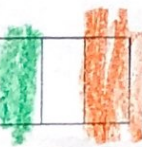

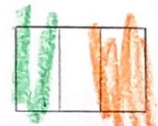

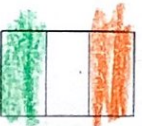

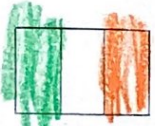

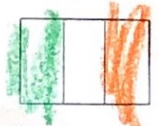

Adrian

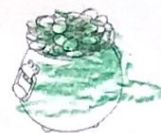

Ireland's Weather  
 In Ireland there are no  
 extreme weather or  
 natural disasters like  
 volcanoes, tsunamis, earthquakes  
 or floods. In Ireland there  
 are very little floods  
 there. Not like other  
 countries. In Ireland  
 people (some times) complain  
 about how much it  
 rains. But when it  
 doesn't it is very nice  
 out side. In Ireland  
 it's not too cold or  
 too hot. In Ireland  
 it is mostly hot in  
 summer and cold  
 in winter. People  
 love the weather  
 here I love Ireland.

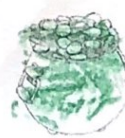

Fiona

# Wealth and Freedom

We don't have a lot of money because Ireland is a bit small and is you go outside and play your lungs might feel better or it feels a maZing and do not watch television and things like phones. Remember to go outside and play with friends we to play in the playground.

Zach

## The safety of Ireland

In Ireland we are very lucky because we have very little crime and no harmful creatures such as dangerous spiders like the black widow and the tarantulas or dangerous insects or dangerous bugs and no snakes, bears, wolves or lions. We don't do war, not like Russia, they are attacking Ukraine but we don't get to war like them. We are lucky because in other countries people get murdered and killed every day. It is not even on the news. We don't get kidnapped very often. We don't get robbed in Ireland. We are one of the safest and luckiest countries in the world.

Melody

## Why Do We Complain?

15/122

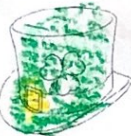

You always hear people complain about their wealth.

They always say, "I wish I had a bigger house," or kids say "I wish I had more toys."

The truth is, in Ireland we are very lucky with our wealth.

In Ireland people have a free education, food, most people have homes and we all have clothes.

In Ireland, we have a thing called a democracy.

A democracy is the right to vote, protest and travel.

If the Irish people don't like one of the laws, then they can vote to get rid of it.

We are so lucky in Ireland.

So next time you are about to complain about something, remember how lucky you really are.

15/3/22

# The LUCK of the Irish

In Ireland we have a lot of rain but no extreme weather and no disasters like volcanoes, tsunamis, earthquakes or floods. We are very lucky because we are always green.

A lot of people complain about the rain but I think Ireland fits with rain. Because of rain Ireland is so green.

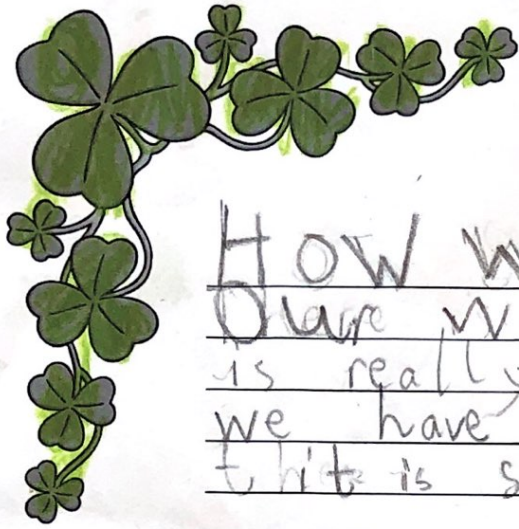

But sometimes the rain can be annoying. A lot of activities are out side and it can be annoying when the rain ruins it but nearly every day it rains so I would do rainy things.

If you are trying to pick where to go for holidays pick Ireland because when it isn't raining it is very green.

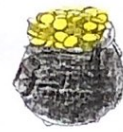

How we take so lucky  
Ourselves to their  
is really good because  
we have rain and sometimes  
that is sunny and hot.

and  
we  
at

We do not have any  
disaster like volcanoes,  
tsunamis, earthquakes  
and storms and sand  
storms, and sometimes  
you would get lucky  
in Ireland, that is why we  
are so lucky and we are  
so lucky because we  
have a lot I mean a lot  
of rain because we are  
a cold country and some  
times there is storms like  
storm barra.

## Stay Green

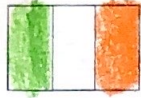

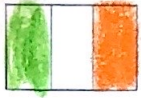

In Ireland everyone complains about the rain and I agree with them a little bit because yeah the rain does ruin your walk or an outdoor adventure but the rain is what keeps us green. They complain about having the worst weather but in other countries they have really bad weather like volcanoes, tsunamis, earthquakes, floods or tornados. Rain keeps flowers blooming, keeps animals and us humans alive. Also we need rain to keep our name 'The Green Island'. So, next time it rains in Ireland just call yourself really, really, really, really lucky!

## Weather And Disasters In Ireland

In Ireland there is a lot of rain but there is never natural disasters.

I like how there is no natural disasters and how there is a lot of rain because that's what makes the land green.

There is no extreme weather, there's no volcanoes, no tsunamis, earth quakes or floods.

There's also not a lot of snow even though it's cold in Ireland and I want it to snow. I don't like the rain because you could be planning to go somewhere.

But, the rain is good, very good. The rain is good and bad.

Some people put basins outside and collect rain. Once I saw a watering can attached to a telephone wire and a basin under it to fill the basin.
